

LHS coaches thankful, excited about KSHSAA ruling on fall sports

Coaches, parents and athletes held their collective breath last week during the Kansas High School Activities Association's executive board meeting.

People around the state watched to see what KSHSAA would recommend for fall sports during the current COVID-19 pandemic. Back to school will be different than normal, and for some, will start after Labor Day due to a high number of positive cases.

Still, many have wondered what was going to happen to fall activities around the state and they got their answer. A motion by KSHSAA failed 5-4 in the executive board session, which in turn allowed the fall sports season to continue as scheduled.

"I am relieved that we know a definite start date and there will be no changes to the start of games," Louisburg High School activities director Michael Pickman said. "The kids and coaches worked all summer, and I didn't want to see that start date delayed and lose that progress. However, there will be some changes due to the pandemic so the focus turns to safety. The last thing I want is for the athletic events and protocols to create the spread of COVID that affects the academic side, so it will be very important that we take the

recommendations of the health organizations and KSHSAA to make the athletics and competitions as safe as possible for this year.”

During the meeting, KSHSAA had proposed keeping the original start of practice date of Aug. 17 for all activities. For activities being able to allow social distancing and minimal contact, such as girls golf, girls tennis, cross country, debate and scholars bowl, no modifications were recommended.

However, the proposal called for moving the start dates for competition in football, volleyball and boys soccer to begin no earlier than Sept. 8 – which basically took a week of their season.

It would have made football an eight game season, instead of the normal nine. For soccer, number of games would have been reduced from 16 to 14 and volleyball would have been reduced from 36-30 points.

For many of the Wildcat head coaches, the vote of the executive board was a breath of fresh air in what has been a challenging spring and summer for local athletes.

“I really think it was a good decision,” Louisburg football coach Robert Ebenstein said. “The kids deserve a chance to be able to play their season. It could be different than we have seen before, but I think we have done a good job of keeping the exposure down. They deserve this opportunity and activities like football will keep kids focused on school as well. I believe it is something they need.

“It was also good decision for the whole state. Yes, we are close to the metro, but you have schools like Smith Center or somewhere else in the state where the exposure is low. Starting the season on time was the right thing to do, and if there are cancellations, it gives schools an opportunity to reschedule if they need to.”

Louisburg's boys soccer program is looking to have another big season as it tries to repeat as a Frontier League champion and their 16 wins from a year ago. Although, the Wildcats are looking forward to getting their season underway, they realize things could change on a daily basis.

"I was extremely excited," Louisburg soccer coach Kyle Conley said. "There were so many rumors and recommendations that were flying I was worried. The vote at least gives this group an opportunity to actually get some games in. This gives the boys soccer team a chance to back up the season they had a year ago. I am excited to see us at least get a chance to start the season.

"I will be honest, I was extremely worried over the summer. In fact, a comment was made in the KSHSAA executive board meeting that still has me worried. They said let's start the season as soon as possible, because we are not sure how long it is going to last. It will also be interesting to see if the CDC or local health departments change their protocols when someone may have it, otherwise teams will be shut down right and left because they might have the virus."

Cross country is a sport that considered somewhat safe when it comes to the spread of COVID-19. Louisburg head coach John Reece has treated this summer like normal.

Reece had 35 runners out for the first day of their daily morning runs, and have averaged 20 a day since then. It is considered a "socially-distanced" sport, and one that KSHSAA had no problems with starting their schedule on time.

"Very excited for our seniors to have a fall season," Reece said. "I'm not gonna hold my breath as who knows what could happen in a month. For now it is go time, and we will be ready.

"We have been able to transition into some workouts on Wednesdays to get some quality work in. The rest of the time

we are running this town and getting in the miles. It is going to be another fun year for both boys and girls teams. We want to get both to state and we will work hard to accomplish this goal.”

Volleyball is the one indoor sport in the fall, which has some worried about how social distancing will work in the gym and how many teams will be invited to tournaments. As for now, nothing has changed in that department, and head coach Jessica Compliment is looking forward to working with her team in a couple weeks.

“It’s nice to know what the season is going to look like,” Compliment said. “The uncertainty and the unknowns for the upcoming school has been a little unnerving, but I am happy to see that the players will have a season.

“I do not know of any changes to our schedule as of right now. I have been told the schedule will go as scheduled until we hear differently. I have not heard from tournament host schools on whether or not they plan to change anything.”

As far as spectators go, there has not been a limit set as of yet as members of the school district are working on protocols to use during the season. For now, the obvious guidelines are the ones people experience on a daily basis.

“There will be guidelines more than restrictions as related to Covid-19 safe practices that align with each sport and specific to that sport,” Pickman said. “Universal aspects like wearing masks to practice and during periods of inactivity will apply to all. Cleaning equipment schedules and protocols to have water bottles and cease use of water fountains, etc, along with others are sport specific guidelines for both practice and game day. These documents are being drafted and will be communicated once final.

“We are following the Executive Order 20-59, so if the event is outside, there will not be masks required, but we will

still encourage social distancing. If the event is inside, masks will be required as well as social distancing encouraged.”

The district has had to make one change to the start of the fall season and that is the cancellation of the Fall Sports Pep Rally that has annually been held at the high school.

“The Community Pep Rally was a hard decision because it is a great school and community business partnership that the community and our coaches, players, and students look forward to, but it was more important to avoid these extra opportunities for mass gathering to place focus on opening school and activities on time and healthy as possible,” Pickman said. “We are looking to reschedule possibly during the buffer week at the conclusion of the fall season. No other events have been cancelled at this time.”
